anthony.martinez: ugh the president caved to the catholic bishops.

anthony.martinez: how unimpressive

me: ugh

me: I know

anthony.martinez: Theology: The science of using fantasy to halt the progression of fact-based thought.

me: it's such a bullshit issue

me: even in italy

me: abortions are taxpayer funded

me: italy, which INVENTED THE POPE

anthony.martinez: lol

anthony.martinez: what's even more fucking hilarious is that the distinct majority of Catholic women use birth control

me: yes

me: that's the best bit

me: the US is split like 60:30 (the rest are "don't know" or other idiots) in favour of forcing them to pay:letting them get away with it

me: but that 30% isn't catholics

me: it's evangelicals!

me: it's the protestants who are vocally OMG BAN ABORTION

me: not the catholics

anthony.martinez: the entire thing makes me want to vomit

anthony.martinez: "Conscience rights"

me: how about "just don't have abortions if you don't want them"

anthony.martinez: As you're a student of the Queen's English

anthony.martinez: and clearly understand the nuance of the language far better than my Texas educated self ever could

anthony.martinez: surely you can show me where in the Constitution of the United States one might find reference to these "conscience rights"

me: lol

me: there's no legal argument to be had

anthony.martinez: but what about Quakers be able to opt out of the draft!

anthony.martinez: oh wait

anthony.martinez: THERE IS NO DRAFT

anthony.martinez: AND ANYONE WHO OBJECTS TO KILLING PEOPLE CAN OPT OUT

anthony.martinez: sort of.. you know... how someone who feels like birth control is a sin

me: right

anthony.martinez: could..

anthony.martinez: you know

anthony.martinez: not use it

me: CO status isn't tied to religion

me: just any genuine belief that it's wrong to kill

me: and it doesn't let you opt out of the draft as such

me: they still had to do civilian service, didn't they?

anthony.martinez: yup

anthony.martinez: so they couldn't kill

anthony.martinez: but they could sure as all fuck make instruments of death.

me: yes

me: which is way more direct than paying into an insurance pool

anthony.martinez: indeed

anthony.martinez: oh, so apparently they didn't have to make bombs and shit

anthony.martinez: controlled erosion, did foresting shit

anthony.martinez: and, the best part

anthony.martinez: participated in human medical experimentation

me: ah, so they took the mens' jobs whilst the men were killing gooks

anthony.martinez: (hepatitis specifically)

anthony.martinez: now it's been a while since my last reading of Leviticus

anthony.martinez: but I'd be shocked if using your Godly temple for medical experiments

anthony.martinez: probably a sin.

anthony.martinez: I have a dream

anthony.martinez: that one day little boys and little girls

anthony.martinez: will ask a question

anthony.martinez: and that question will be answered with science.

anthony.martinez: A future free from the oppression of religious fantasy.

me: I dream of a world in which sexy 16 year olds line up to let me have sex with them

anthony.martinez: lol

me: gotta say, my dream sounds more exciting than yours :p

anthony.martinez: I can't say I've seen that many 16yr old that really made me hard.

anthony.martinez: I feel like 20 is about the sweet spot.

me: someone who friended me on facebook (I have no idea) posted a picture of his daughter, I'm guessing she's like 13 or something

me: it's all I can do to not post "I'd hit it"

anthony.martinez: hahahahaha

me: https://fbcdn-sphotos-a.akamaihd.net/hphotos-ak-snc7/406510_3302897257003_1405117848_33298382_60687626_n.jpg

anthony.martinez: lol

anthony.martinez: you are a sick sick man.

me: she looks ripe enough

anthony.martinez: lol

me: I mean, I'm not saying it'd be legal

me: except in the vatican (age of consent: 12)

me: but like

me: I'd better wear a condom

me: we don't need more teenage mothers

anthony.martinez: lololol
